

HUMAN BLOOMING

Computational Challenge Submission Form

Schedule / pre-engagement form for the Computational Challenge Resolution Agreement

Purpose. This form defines the Challenge, the objective success criterion, the price, and the technical conditions before Human Blooming decides whether to accept the engagement. Submission of this form does not obligate Human Blooming to accept the Challenge.

Challenge Reference	[To be completed by Human Blooming: ●]
Submission Date	[●]
Client / Company	[●]
Contact Person	[●]
Email	[●]
Phone (optional)	[●]
Client Country / Jurisdiction	[●]
Industry / Business Activity	[●]

1. The Challenge

In plain language, explain the problem you need solved and why it is currently difficult or impossible for you to solve.

2. Input Data

Describe exactly what information, files, variables, parameters, datasets, APIs, or access you will provide. State formats, approximate sizes, and examples whenever possible.

3. Expected Output

State what Human Blooming must deliver for the problem to be considered solved: a numerical value, set of values, file, algorithm, proof, optimization, prediction, demonstration, code, report, or other result.

4. Objective Success Criterion

Define a clear and verifiable test. Example: "the output will be valid if it satisfies A, B, and C with a maximum tolerance of X." Avoid subjective criteria such as "it works well."

5. Verification Method

Explain how the success criterion can be verified without requiring Human Blooming to initially disclose the complete solution. This may include a test dataset, controlled execution, hash, third-party verification, automated test, or another method.

6. Constraints and Conditions

State any computational time limits, hardware, memory, accuracy, permitted/prohibited technologies, dependencies, licenses, regulatory requirements, or any other restrictions.

--

7. Price Proposed by Client

Total Price Offered	USD [●]
Initial Escrow Deposit (20%)	USD [●]
Currency Other Than USD, If Agreed	[●]

Client proposes the price. Human Blooming is free to accept or reject the Challenge. If accepted, the 20% deposit will be funded in accordance with the Agreement; if the Challenge is solved, it will be credited toward the price, and if it is not solved within the applicable period, it will be returned in full in accordance with the Agreement.

8. Confidential Information and Sensitivity

- ☐ The Challenge contains confidential information.
- ☐ It contains trade secrets or sensitive technical information.
- ☐ It contains personal data.
- ☐ It contains information subject to industry-specific regulation or contractual restrictions.
- ☐ None of the above applies.

Details / Special Measures

Identify any information requiring special handling. Do not include passwords, private keys, or unnecessary data in this form.

--

9. Rights in Client-Provided Materials

- ☐ I confirm that I have the right to provide Human Blooming with the data, materials, and access necessary to analyze this Challenge.
- ☐ I confirm that the requested use is not for an unlawful purpose and does not infringe third-party rights.
- ☐ Before acceptance, I will disclose any license, NDA, contractual obligation, or restriction affecting the materials.

10. Anonymized Publication by Human Blooming

If Human Blooming solves the Challenge, the Agreement permits Human Blooming to reference only the industry and a generic description of the type of problem solved, without publishing the solution, specific result, price, Client identity, name, or logo.

- ☐ I have read and understand this limited public-reference rule.

www.humanblooming.com

11. Additional Information

Add any context that may be relevant to assessing the difficulty, urgency, or feasibility of the Challenge.

12. Attached Documentation

Files / Links / Attachments	[List the name and version of each file: ●]
Approximate Total Size	[●]
Secure Delivery Method	[●]

13. Declaration and Submission

By submitting this form, Client represents that the information provided is accurate to the best of Client's knowledge, that Client is authorized to submit the Challenge, and that Client understands that the submission constitutes a proposal only. The Computational Challenge Resolution Agreement will become effective only if Human Blooming expressly accepts the Challenge and the activation conditions set forth in that Agreement are satisfied.
